ECO-Controller has been customized by using iLOGIC's ECO-Controller logic conversion toolkit to produce a specialized logic for the ATX1284SB and PLX8572SB VGA motherboards. I finally got through to the factory, they agree that the Samsung ATM508T 10.1" LED LED-backlit M.2 NVMe SSD is a good fit for the PC, but only if we have the correct thermal compound. So far, the factory provided me this products: Samsung 830 SSD Samsung 840 PRO 960GB Samsung 860 EVO 1TB Samsung 850 EVO 2TB Samsung 850 PRO 1TB Samsung 850 PRO 500GB Samsung 930 PRO 1TB Samsung 930 PRO 2TB Samsung 850 PRO 512GB Samsung 905 EVO 1TB Samsung 950 PRO 512GB Samsung 950 PRO 1TB In your request you asked for getting the empty M.2 adapter (they can be used as replacements for M.2 sockets). My offer is a bundled package with Samsung 900 EVO 1TB SSD (empty adapter) as replacement for the Samsung 960 EVO 2TB (empty socket). As a bonus, I am offering a half of my works hours for one more possible ITEM. Thank you! Last edited by rlongblong on Wed Jun 28, 2017 3:18 pm, edited 1 time in total. rlongblong posted 5 years ago: We may have the supply, but the CPU adapter (M.2 to SATA adapter) is not working with the ASUS motherboard (we are not able to find the difference to make this work). As said before, we have both of these ITEM, so let's discuss the final offer: Hey Simon, great to hear from you! Yeah I'd love to see this go through, I am not sure if the motherboard can be upgraded tho, but perhaps we can find out :) So the \$500 USD for my offer is pretty good, since I assume the other 250 USD will turn into taxes and shipping. As said before, you are welcome to offer prices for specific product, but I can only do discounts for multiple purchases. Also the minimum order for custom order is \$1000, for every \$500 USD I earn, I can remove one of the ITEMS. Haha, thanks for the offer, I think we can talk him into it. 6d1f23a050
